## Oracle Cloud Infrastructure 2025 Certified Foundations Associate

Issued by **Oracle**

The Oracle Cloud Infrastructure (OCI) Foundations certification is for individuals who intend to demonstrate fundamental knowledge of public cloud services provided by Oracle Cloud Infrastructure (OCI). This certification is for candidates with non-technical backgrounds, such as those involved in selling or procuring cloud solutions, as well as those with a technical background who want to validate their foundational-level knowledge around core OCI services. This exam does not require any hands-on technical experience and is not a prerequisite for taking any other OCI certifications.

## Skills

Understanding of basic cloud concepts

Familiarity with core OCI services including Compute, Storage, Networking, Database, Developer, Analytics, AI, Observability and Hybrid services

Ability to explain OCI security and identity model and compliance structure

Understanding of OCI billing and cost management

Understanding of governance and administration
